**Subject:** PR800-011

Mr. Watson:

According to the date revision history you provided for PR800-011 on Friday, the earliest version of that policy- revision 1, was in effect from 04-09-2002 through 04-09-2002. Revision 1 makes it pretty clear that PR800-011 is replacing a previous set of Design Control documents which are not specifically identified. We need the version of those Design Control documents that were in place at the time of the development and clearance of the TTV classic, as well as any revisions of that policy that were made in the interim before the start of the 30b6 continuation on Tuesday.

Thanks

**Subject:** Production 128

Mr. Watson:

Regarding production 128, there are a number of documents in that production with imaging problems/missing text that will need to be reproduced similar to productions 122-124. I will get you a full list of those documents shortly but I want to specifically request eth.mesh.08477448 now, which I believe is revision 6 for PR800-011; I am unable to determine that for certain due to much of the text being obscured. That document is urgently needed. Can we please get that reproduced or sent in an e-mail right away?

Additionally, revisions 1-5 of PR800-011 all reference 5 different appendices. I have found a set of 5 appendices that relate to PR800-011 within production 128, However, there appears to be only 1 set of them. Can you confirm for me that the appendices for PR800-011 never changed during the effective dates of revisions 1-5? If not, please let me know which version of PR800-011 the 5 appendices that were produced apply to and please produce the other 4 sets right away.

Thanks

Andrew,

I'm checking on these appendices.

Also, the SOPs you requested on Tuesday and yesterday are in Production 128 that was just sent to you.

Thanks.

Mr. Watson

Version 6 of PR6002-003 references 10 different appendices. We have been unable to locate them within the productions. I suspect it may be included in one of the productions that contained high numbers of documents with image problems. I realize you just made a production today, but it will take some time to process that production and we really need those appendices right away. Would it be possible to have that sent to us today?

Thanks
